Out of the gate, **FIVE FINGER DEATH PUNCH**’s brand-new single, “UNDER AND OVER IT”, is the most-added song on the Active Rock Radio charts (BDS/MediaBase) and the #1 best-selling song on the iTunes Rock chart, and also hit #1 on Amazonmp3.com’s Hard Rock/ Metal charts. The single was released on iTunes, Amazon and other online retailers yesterday and instantly shot up to the top spot. The track burst into the #33 spot on the overall top songs iTunes chart today, making it the only hard rock/metal song in the Top 40. “UNDER AND OVER IT” is the first single from **5FDP**’s forthcoming album, *American Capitalist*, releasing on October 11th, 2011. The new album was recorded at “The Hideout” in Las Vegas, NV with producer Kevin Churko.

The band recently announced their upcoming headlining run with the ‘**SHARE THE WELT TOUR**’ in support of *American Capitalist*. Heading out to support **5FDP** on the tour are **All That Remains**, **Hatebreed**, and **Rev Theory**. The tour has created a huge online surge since its announcement; **5FDP**’s site actually crashed momentarily on Monday from an overload of traffic after the lineup was released.
