**ROCKSTAR ENERGY MAYHEM FESTIVAL Exclusive Suicide
Silence Interview Featured on MUSIC BETA'S MAGNIFIER**

An exclusive interview with **Suicide Silence** vocalist Mitch Lucker filmed at this year's ROCKSTAR ENERGY DRINK MAYHEM FESTIVAL is currently being featured on **Magnifier**, a new site from the **Music Beta by Google** team. There is also a FREE track 'You Only Live Once' from the band's latest album *The Black Crown* which users can add exclusively to their **Music Beta** libraries from **Magnifier**. Check it out at [this location!](#)

Music Beta, launched earlier this year, is a service that lets people upload their personal music collection to the cloud for listening on the web or their Android phone or tablet. **Google** recently took this aspect one step further by unveiling **Magnifier**, a new music discovery portal that will keep fans' music collections growing. **Magnifier** features great music and the people who make it, including videos of live performances, interviews with artists, explorations of different musical genres -- all coupled with free songs that fans can add to their **Music Beta** collection.
