WILLIAM CONTROL: On Tour with BLACK VEIL BRIDES Now!

Producer, Engineer, Writer and AIDEN Frontman WILLIAM FRANCIS Takes his Electronic Solo Project on the Road

For the past few years, **William Francis** has been opening the eyes (and ears) of fans new and old with his haunting electronic “dark wave” project **WILLIAM CONTROL**. Now, with three full-length albums, an EP, a DVD and several live performances under his belt, the singer, writer, producer and engineer (also known around the world as the wickedly-striking frontman for scene giants **Aiden**), has taken his project out on the road with his friends in **Black Veil Brides** on their “The Church of the Wild Ones” tour.

Infusing a new wave sensibility reminiscent of **New Order**, **Bauhaus**, **Gary Numan**, and **Depeche Mode** with a reinvented twist of his own, **WILLIAM CONTROL** has already proven to be an accepted, unique, and unrelenting addition to the **Black Veil Brides** tour.

WILLIAM CONTROL is on the road now! See below for all remaining tour dates.

The latest album to come out of the **WILLIAM CONTROL** solo project, 2012's *Silentium Amoris*, melds together dark, cinematic themes with experimental synth pop sounds. While alarmingly melancholic and moody, it also evokes an unrelenting fury, as well as aggressive elements of the industrial dance sound. William also just released a 90-minute live DVD entitled *William Control - Live in London Town*. The DVD, shot over the course of three days in London, England, and features 20 tracks, including a brand new unreleased song.

William has two other albums (*Hate Culture, Noir*) and an EP (*Novus Ordo Seclorum*) out now. He has also had select tracks featured on soundtracks for *Saw V*, *Underworld: Rise of the Lycans* and *Underworld: Awakening* and has appeared as a guest vocalist on tracks by **The Used**, **Vampires Everywhere!** and more.
