

VALLEYS was founded on the philosophical idea with every valley, comes a mountain. This means, that with every low point in a persons life, there will be a high point, something to look forward to. **VALLEYS** personifies that idea with every note, every chord, every songs lyric, and every ounce of their creative musical talents.

Formed in 2013, **VALLEYS** took that idea and quickly rose to the top in their local and regional areas. In 2014 they release their debut EP, *Reborn* followed by two tremendous, re-inventive singles. **VALLEYS** has taken progressive metal and breathed new life into it.

2015 hwas dominated by **VALLEYS**, winning this years Headbang For The Highway Battle of The Bands to open Summer Slaughter tour. They also embarked on some successful tours all around the eastern coast and mid west and with 2016 fast approaching, they are showing no signs of slowing.

VALLEYS is slated to release their debut full length, and tour immensely through 2016. **VALLEYS** is here.
